

21 January 2016

To whom this may concern.

As I said in my motivational letter, "If I were to receive this bursary it will be an honor and a privilege. I have always been a dedicated and hard working student but had to work extra hard to get accepted into the Dietetics program, but because I truly have a passion for nutrition I did not mind the extra hours and hard work that had to be put in to ultimately reach for my dream career." This will now be possible with the ADSA Bursary.

To receive such recognition for all my hard work has made me so grateful and confirmed once again that hard work indeed pays off. You just need to keep on doing what you love and you will be rewarded.

The ADSA Bursary will allow me to finish my studies without any worries about the financial obligations my mother would have faced, which I am sincerely thankful for.

I will now have the opportunity to help and educate so many in need of this essential service and actively make a difference that could change people's lives. This will truly be a rewarding experience for me. As Mohatma Gandhi said, "The best way to find yourself, is to lose yourself in the service of others."

Once again, I am truly grateful to ADSA for this Bursary.

Kind Regards

Nicole Coetzee
